imagine a fresh look at your favorite photos. By combining an 8" wide LCD with Wi-Fi connectivity and a long list of features and functions, the high-style Samsung SPF-83V LCD digital photo frame makes it easy to display entire collections of new pictures and timeless classics every day. Update it wirelessly via PC or sync it directly with a Windows Live Space or photo-sharing website. The SPF-83V even plays video, audio, and MP3 music files, and makes a powerful point-of-sale tool in a retail setting. Enjoy more photos, more often. With the Samsung SPF-83V digital photo frame, it's not hard to imagine

SPF-83V

Wireless 8" Wide LCD Digital Photo Frame

Features

Wireless Connectivity

Offering 802.11b/g wireless connectivity, the SPF-83V can be linked to your PC or directly to the Internet to receive automatic photo updates via a Windows Live Space or photo-sharing website that offers RSS feeds.

5-in-1 Memory Card Reader

The multi-source SPF-83V features a built-in card reader that accepts CompactFlash (CF), MultiMediaCard (MMC), Secure Digital (SD), Memory Stick and xD-Picture Card.

Built-in 64MB Flash Memory

Built-in flash memory frees your memory card for more pictures. Or store your all-time favorites in the internal memory, and keep a card updated with the latest and greatest.
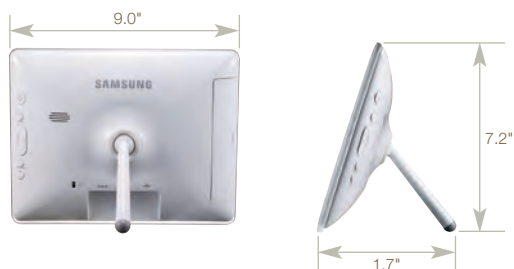

Dual USB Ports

With two styles of USB ports — 1 Type-A and 1 Type-B — the SPF-83V delivers valuable versatility. You can download files from your PC or directly from a USB thumb drive, and even use the SPF-83V as a mini-monitor.

Ball Hinge Stand and Wall Mount

A new ball hinge mechanism using an elastomer ball allows fluid movement and a more natural viewing angle. The wall mount function frees up space and creates an elegant look.
